ACCELERATE WOUND HEALING AND ELEVATE YOUR STANDARD OF CARE

AS YOUR PATIENTS WORK TOWARD HEALING, ARE COMPLEX WOUNDS WORKING AGAINST THEM?

Advanced pressure injuries are all too common in hospitals and long-term care facilities — as are complex skin conditions like flaps, grafts, burns and deep tissue injuries. These serious complications can have significant impacts on clinical and financial outcomes.¹

Pressure injuries are associated with:¹

For Better Healing, Rethink Your Surface

It's time to elevate your standard of care — and the clinical and financial outcomes that come along with it. We developed the Envella® bed, our most advanced wound care surface to date, to help your patients heal more quickly and comfortably.

Hillrom is a part of Baxter

Baxter

Elevate Your Standard of Care

The Envella® Bed makes complex wound care simpler.

- 1** Easy-to-use touch controls
Integrated scale and auto-leveling bead bath
Head-of-bed angle indicator and alert
Bed exit with alert silence
- 2** Central brake and alert
- 3** Superior performance for all major skin risk factors with Air Fluidized Therapy
- 4** Comfortable and patient-adjustable transition
Weight-based pressure redistribution
- 5** Easy to remove, self-standing siderails
- 6** Side transfer for easy patient ingress/egress

TECHNICAL SPECIFICATIONS

Bed	Low Position	22" (56 cm)	Air Fluidized Therapy	Bead Temperature Control Range	86° - 100°
	High Position	31.5" (80 cm)		Minimum Width of the Bead Section	19" (48.3 cm)
	Overall Length	92.5" (235 cm)		Minimum Length of the Bead Section	45" (114 cm)
	Overall Width	40" (101.6 cm)	Caster and Braking System	Caster Size	6"
	Head Elevation Range	0° - 60°		Four Wheel Braking	Yes
	Bed Frame Ground Clearance	6" (15.2 cm)		Break Not Set Alert	Yes
	Patient Weight Range	70-350 lbs (32-159 kg)	Power Requirement	Power	120V, 60 Hz
	Maximum Patient Height	75" (191 cm)		Max Current	10 A
